### Get "Carried" Away

Mix up a cosmo and grab your Choos because the much-anticipated **Sex and the City 2** is now in theatres, and if you're anything like us, you've been dying to see how all the sultry and sassy shenanigans will unfold on the big screen. Will Carrie reconnect with Aiden? Will Charlotte's marital-bliss bubble pop? Only time will tell. But one thing is for sure—this movie is guaranteed to be filled with fierce fashion, lots of love and laughs—and of course amazing hair. And we have **Frank Barbosa**, the flick's hair department head, to thank for that. We caught up with Frank to get the backstage scoop and find out how he kept the fabulous foursome looking lovely throughout the movie. As any great hairdresser knows, achieving amazing hair is all about the products. "I always have Rene Furterer in my set bag," he says. "The Fioravanti spray calms down flyaways and works really well under bright lights. It helps to seal the cuticle so the hair holds up all day." Frank also colored all the stars' hair with It&ly Hairfashion Hair Color and used Matrix Vavoom Design Pulse Glow to Pieces to give Mr. Big a timeless, polished Cary Grant look. The Matrix Vavoom Shape Maker Shaping Spray was also a life-saver on the set, he says. "I added a little heat to it after spraying to keep the look just right during long days of shooting." Frank admitted that all the ladies absolutely loved DevaCurl Set It Free Moisture Lock. "We used it like water when styling and restyling. It's amazing on extensions and brings them right back to life," he says. [Check out more of Frank's SATC2 hair secrets!](#)
